December 12, 2023

Today, we will try to make a bigger project - Trilobot will be able to follow a tag.

- Explanation of the workflow
- Description of the task
- Happy hacking! :)

- Connect to Trilobot and ssh into it. All the commands below needs to be run on Trilobot.
- Run Realsense node:
 - `roslaunch realsense2_camera trilobot_camera.launch`
- Run Apriltag detector:
 - `roslaunch apriltag_ros continuous_detection.launch`
- Run roserial node
 - `roslaunch trilobot roserial.launch`

Thank You For Your Attention !
